SKILLS SUMMARY

✓ Forensic attention to detail

✓ Fast and keen learner

✓ Positive can-do attitude

✓ Problem-solving oriented

✓ Team player

✓ Great Leadership Skills

✓ Creative Thinking Skills

✓ Reliable & Professional

ABOUT

Over the past six years, I have consistently delivered high-quality software solutions in fast-paced environments. My experience includes building and maintaining complex systems, leading technical projects, and collaborating with cross-functional teams to achieve business objectives.

WORK EXPERIENCE

Senior Full Stack Developer

HUEMOR | Pittsburgh, PA | September 2022 - Present

- Architect, develop, and maintain custom WordPress themes and plugins tailored to meet specific client requirements, ensuring seamless functionality across front-end and back-end systems.
- Lead end-to-end development of WordPress websites, utilizing both front-end technologies and back-end frameworks.
- Implement and integrate third-party APIs to enhance functionality and connect WordPress sites to external platforms and services.
- Optimize website performance, including improving load times, implementing caching mechanisms, and conducting regular speed tests.
- Ensure robust security measures are in place by implementing secure coding practices, SSL certificates, and security plugins to prevent vulnerabilities such as SQL injections and XSS attacks.
- Oversee the creation, migration, and management of databases, ensuring smooth database operations and troubleshooting any issues.
- Ensure responsive design and compatibility across various devices and browsers to provide a seamless user experience.
- Lead technical discussions with clients and stakeholders to gather requirements, provide updates, and ensure timely delivery of high-quality solutions.
- Provide guidance and mentorship to junior developers, conducting code reviews and enforcing coding standards across the team.
- Streamline deployment processes by implementing continuous integration and continuous delivery (CI/CD) pipelines, automating testing and deployment for efficient project delivery.

Senior Full Stack Developer

Proxify | Sweden | March 2023 - February 2024

- Acted as a mentor, providing guidance and technical expertise to junior team members, contributing to their professional growth.
- Spearheaded the development of end-to-end features, ensuring seamless integration between frontend and backend components.
- Utilized cutting-edge technologies such as React, Svelte and Node, js to enhance overall system performance and user experience.
- Collaborated with cross-functional teams to design robust and scalable APIs, fostering interoperability between different modules.
- Enforced best practices in coding standards, code reviews, and continuous integration, resulting in a more stable and reliable codebase.
- Collaborated closely with product managers, designers, and other stakeholders to understand project requirements and deliver solutions that exceeded expectations.
- Facilitated sprint planning, retrospectives, and daily stand-ups to ensure effective communication and progress tracking.

Web3 Front End Developer

Energi | Worldwide | August 2022 - March 2023

- Develop core features for dApps.
- Maintain the existing ecosystem to the highest degree of quality.
- Build front-end Web3 interface.
- Translating UI/UX design wireframes into code that will produce the visual and interactive elements of applications.

Head Of Department

Black Bird Marketing | Prishtina, Kosovo | July 2021 - August 2022

- Responsible for seeing through projects from development to delivery.
- Managing 14 developers separated into 4 teams.
- Working closely with the Sales team to land clients and send project offers.
- Hiring new Staff members for upcoming projects.
- Responsible for the development of the in-house SaaS Product – Formify.

Team Leader

Black Bird Marketing | Prishtina, Kosovo | June 2020 - July 2021

- Lead developer of a team of 5 developers.
- Lead developer of 4 interns, which later became another team of 4.
- Responsible for seeing through projects from the development to deployment

Full-Stack Developer
Black Bird Marketing | Prishtina, Kosovo | August 2019 - June 2020

- Responsible for developing Headless WordPress websites with ReactJs and Svelte.
- Responsible for developing Headless Strapi websites with ReactJs and Svelte.
- Responsible for developing React and Svelte Websites.
- Responsible for developing Backend API Endpoints with Node+Express to handle communications with the WordPress CMS or Strapi.
- Responsible for developing Backend logic for websites, web apps, and mobile apps.
- Responsible for returning data from MySQL or MongoDB database through API endpoints built with Express

Front End Developer
Black Bird Marketing | Prishtina, Kosovo | March 2019 - August 2019

- Responsible for developing Headless WordPress websites with ReactJs.
- Responsible for developing React Websites.
- Responsible for developing Backend API Endpoints with Node+Express to handle communications with the WordPress CMS.

EDUCATION

University of Prishtina, Kosovo
